

# REMOTE INDICATOR

Remote alarm indicator features high-brightness LED technology with 180 ° of visibility.

The remote indicator is used when the fire / smoke detector is mounted in a hidden or non-visible location, for example in closed rooms. It is recommended that the remote indicator be installed at the entrance of these locations, preferably in elevated viewpoint, in order to be visible afar.

Table

<b>Maximum supply</b>	30 VDC
<b>Luminosity</b>	230 mcd
<b>Alarm current</b>	25 mA
<b>Dimensions</b>	65 x 65 x 270 mm
